

In order to access the files you need to change the files path into the files names variables located into the "SRSDataAccess" class' constructor :

```
//Constructor
    public SRSDataAccess() {
        facultyFileName =
"/Users/allyx/Documents/lasalle_courses/Java/SRSDatFiles/Faculty.dat";
        assignmentsFileName =
"/Users/allyx/Documents/lasalle_courses/Java/SRSDatFiles/TeachingAssignments.
dat";
        courseFileName =
"/Users/allyx/Documents/lasalle_courses/Java/SRSDatFiles/CourseCatalog.dat";
        prereqFileName =
"/Users/allyx/Documents/lasalle_courses/Java/SRSDatFiles/Prerequisites.dat";
        scheduleFileName =
"/Users/allyx/Documents/lasalle_courses/Java/SRSDatFiles/SoC_SP2005.dat";
    }
```
